"short momentum" is melodic and catchy, pop and soul – and is the 2nd release for the Seattle based folk-pop group, origami ghosts. Neat electric guitar hooks, quirky-good reverb-soaked vocal melodies, warm and sailing cello sounds, and thumping drum beats, uniquely drive "short momentum" out of the folk world, towards the sounds of punk and pop.

The songs are written by singer-songwriter/guitarist J.P. Scesniak, with the accompaniment of cello (Ki Johnsen), and drums (Amir Estakhrian and James van Leuven). The album was produced by Kevin Suggs (Cat Power, Goodness) and mastered by Kramer (Galaxy 500, Low, etc.).
